Dubai, UAE

### EDUCATION

#### ◆ B.Tech ECE

University College of Engineering  
Kariavattom, Kerala, India

2014 - 2018

### KEY SKILLS

- Frontend Development
- Responsive Web Design
- Software Development
- Testing & Debugging
- Troubleshooting & Issue Resolution
- Secure Data Transmission
- Application Maintenance & Optimization
- API Integration
- Unit Testing & Code Review
- Quality Assurance
- Systems Administration
- Automation
- Performance Monitoring
- Database Management
- Network Configuration
- Security Protocols & Practices
- Client Relationship Management

### SUMMARY

Dedicated and results-oriented Software Developer with **5 years** of experience proficient in both full-stack and frontend development. Proven track record of delivering secure and scalable solutions. Collaborative team player committed to delivering high-quality products within project deadlines. Continuously staying updated with industry advancements to enhance technical expertise. Eager to leverage expertise and commitment to drive excellence in a dynamic software development environment.

### WORK EXPERIENCE

#### ◆ Full Stack Developer

Jul 2023 - Present

Nathan Digital, Dubai, UAE

#### Duties and Responsibilities

- Develop and maintain both frontend (Vue.js) and backend (Node.js) of web applications, ensuring seamless collaboration between teams and comprehensive understanding of the development process.
- Utilize Vue.js and Vuetify framework to create responsive web applications, enhancing user experiences.
- Integrate external APIs seamlessly, improving system connectivity and functionality.
- Conduct thorough testing and debugging to ensure optimal performance and functionality across various platforms and devices.
- Utilize Agile methodologies to plan and execute project tasks efficiently.
- Conduct security audits and implement necessary measures to mitigate risks.
- Stay updated with emerging technologies and trends to drive innovation in product development.

#### ◆ Frontend Developer (Freelancer)

Jun 2023 - Jul 2023

Belong Interactive, Dubai, UAE

#### Duties and Responsibilities

- Translated design mockups into interactive web interfaces using HTML, CSS, and JavaScript.
- Optimized frontend code for performance across different browsers and devices.
- Collaborated with UI/UX designers for seamless design integration.
- Implemented accessibility standards following WCAG guidelines.
- Conducted testing and debugging to resolve frontend issues. Ensured cross-browser compatibility and web app performance.

## TECHNICAL PROFICIENCY

- **Frontend Development:**

Angular | Vue JS | HTML/CSS |  
JavaScript | TypeScript | SCSS |  
Bootstrap

- **Backend Development:**

Node.js | Java/Springboot

- **Frameworks:**

Vuetify

- **Version Control:**

Git

- **Development Methodologies:**

Agile Methodologies

- **Ms Office**

Word | Excel | PowerPoint

## SOFT SKILLS

- Communication
- Leadership
- Team Work
- Critical Thinking
- Time Management
- Decision Making
- Active Listening
- Adaptability
- Attention to Detail

## LANGUAGES

- English
- Malayalam
- Hindi

- Designed and developed interfaces using Angular, Vue JS and other frontend technologies.
- Participated in Agile ceremonies like sprint planning and retrospectives.
- Resolved technical issues promptly to maintain user experience.
- Utilized SCSS mixins for standardized styles and design consistency.
- Maintained clear documentation and participated in code reviews.

### ◆ **Systems Engineer**

**Nov 2021 - Mar 2023**

Tata Consultancy Services, Kerala, India

#### **Duties and Responsibilities**

- Administered and maintained enterprise-level systems for high availability and reliability.
- Automated tasks using scripting languages and configuration tools.
- Collaborated across teams for infrastructure upgrades and enhancements.
- Provided technical support for system-related issues.
- Led successful migration projects for enhanced performance.
- Gathered requirements and delivered solutions, leveraging Looker and Grafana for monitoring.
- Managed policy migration processes for secure data transmission.
- Conducted code analysis and modifications during migrations.
- Utilized Jira for project management, overseeing timelines and tasks.
- Implemented security measures to safeguard sensitive data.
- Documented system configurations and troubleshooting steps for knowledge sharing.

### ◆ **Software Developer**

**Feb 2019 - Oct 2021**

ShellSquare Softwares LLP, Kerala, India

#### **Duties and Responsibilities**

- Developed reusable and scalable code using Angular and Vue.js, conducting comprehensive unit testing and debugging to ensure software quality.
- Utilized Vue.js to develop and maintain applications for planning and simulating drilling operations, staying updated with the latest trends and best practices to contribute to process improvement and documentation.
- Collaborated with backend developers to seamlessly integrate RESTful APIs, ensuring functional requirements and efficient data integration.
- Conducted rigorous unit testing and integration testing to maintain software quality standards.
- Actively participated in code reviews, resolving quality issues to improve maintainability and enhance application performance.
- Ensured cross-device and cross-browser functionality by maintaining and optimizing applications, implementing responsive designs, and utilizing performance optimization techniques.
